

Mr. Nathaniel Krueger - Technology Coordinator

Shortly before graduation, a classmate who grew up near our university asked if I wanted to attend a job fair in Spotsylvania, Virginia. A four hour drive and short interview later we were both offered jobs to teach 4th grade at Salem Elementary School. In my 17 years teaching for Spotsylvania County, I taught 5 years of 4th grade at Salem, served as an Instructional Technology Resource Teacher for 6 years (delivering professional development and working with teachers at Wilderness ES, Riverview ES, and Lee Hill ES), and then 5 years of 3rd grade at Chancellor Elementary.

Shortly after my son's baptism at St. Mary's, I made the easy decision to attend RCIA and become a member of the Catholic Church. It was through this process that I realized a void existed in my profession as a teacher. I wanted a God-centered classroom and to strive to bring out the unique God-given gifts in each of my students. When my wife and I decided we wanted a Faith-filled education for our son, I decided to apply and accept a position teaching 4th grade here at Holy Cross Academy. With the administration change that same year, the Technology Coordinator position became available and I accepted the new role. In addition to teaching the technology standards to the entire school, I maintain and coordinate the monitoring of all of the school's technology.

I attended Susquehanna University in Selinsgrove, Pennsylvania and graduated in 2002 with a degree in Elementary Education and received my Masters in Education in the Fall of 2003 from American Intercontinental University. My wife, Robin, and I married in the fall of 2010. She has given us two beautiful children. My son is a 4th grader and my daughter is a 1st grader here at HCA. We have 2 dogs, Tilly and Ace, a cat, Finn, and a hermit crab, Hermie. I am a HUGE Cubs fan. When I'm not following everything related to the Cubs, I enjoy coaching my kids' sports teams, camping, and playing the guitar.
